1 Project Idea:

Title: Mental Health Insights Dashboard

Description: Develop a data visualization dashboard using Tableau or Power BI to display mental health insights from the MindCare AI system. The dashboard should provide an overview of user mental health trends, including emotion analysis, mood journaling, and emergency alerts. This project will demonstrate the candidate's ability to apply data analysis skills to real-world problems and create actionable insights for stakeholders.

ENGINEERING ACTION PLAN

Review the Match Score above. If below 80, prioritize the 'Missing Skills' section and complete the suggested project to strengthen your resume.
